Collect highly accurate survey data for urban design, planning, and construction workflows.

At Survey Air, we deliver efficient, cost-effective mapping surveys, tailor-made to facilitate planning and design.

Technical Design

UAV data can generate outputs in DWG & LAS formats, ensuring compatibility with AutoCAD and BIM workflows.

Roof & Elevation Plans

Drones capture hard to access façades, rooflines, and architectural features, supporting terrestrial scans.

Topographical Modelling

Obtain accurate ground levels, boundaries, and site features, including contours, spot height and surface details.

Why choose us? Trusted. Experienced. Reliable.

Custom-built dedicated client portal.

Up to **40-70%** time savings on data collection.

Fully compliant with UK **CAA** regulations.

Measured Survey

Outlined below is the pricing structure for our measured survey services, delivering, geo-referenced outputs suitable for AutoCAD exports, including DWG and Revit formats.
